CAMRA Good Beer Guide

Pub Selection Criteria

Primary Criterion:

- 1) *The pub should consistently serve ale of good quality and in excellent condition at all times.*

The above shall be taken to mean **consistent beer quality over a full year**.

Other CAMRA Criteria to be Considered:

- 2) *The pub should comply with the approved beer dispense methods detailed in the CAMRA Internal Policy Document (see attached copy of Appendix 1).*
- 3) *Branches are to give preference to pubs using oversized, lined glasses wherever pubs of equal status are considered for GBG entry.*
- 4) *Branches may include outlets in the GBG that are not pubs.*
- 5) *Will the licensee still be in the pub when that edition of the GBG is published?*

Other Considerations:

- 6) *Real cider and perry (see <https://camra.org.uk/producers>).*
- 7) *Welcome / friendliness of staff.*
- 8) *Presentation / cleanliness.*
- 9) *Food.*
- 10) *History of the pub / establishment.*
- 11) *Architecture.*
- 12) *Support for the community.*
- 13) *Pub garden.*
- 14) *Accommodation.*

The primary selection criterion is, and should always be, **beer quality**. The other factors should only be an influencing factor if there is a related impact to beer quality (for example, a change of landlord or cellar manager).

Pubs that serve any beer by misleading dispense, even if others available qualify as cask ales, are not eligible for nomination
